**PROJECT DESCRIPTION:**

La Financière agricole du Québec was assigned to counsel the Department of Agriculture of Peru for the definition and implementation of an agricultural insurance program in Peru. Our contribution involved giving advice, technical assistance, transfer of knowledge mainly involving the methodology and practices used in the development, performance, implementation, administration and information management of an agricultural insurance program. The work was concretely performed by developing an insurance prototype for the growth of grain maize. This prototype may be adapted to other types of crops or to all of Peruvian agriculture if needed.

**ACHIEVEMENTS:**

- ⊕ Inventory of data and available systems
- ⊕ Conducting risk analysis
- ⊕ Development of insurance protection for the growth of grain maize
- ⊕ Transfer of knowledge to lawyers, economists and agronomists at the Department of Agriculture.
- ⊕ Documentation of operational processes
- ⊕ Establishment of rates for premiums
- ⊕ Development of a standard form insurance policy
- ⊕ Lexicon of terminology in agricultural insurance
